1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eckhard H. Kuesters on 12/7/05.

The application has been amended as follows:

Cancel claims 11-19.

2. The following is an examiner's statement of reasons for allowance: The major difference in the claims not found in the prior art of record is the solid-state image pickup apparatus comprising: at least a part of the first-conduction-type signal accumulating section in a direction of a channel thereof extends to overlap the gate electrode in a direction in which signals are discharged; a barrier layer formed at least close to a lower part of the first-conduction-type detecting node section of the MOS field effect transistor; and the first-conduction-type detecting node section is not located below the gate electrode but at a second side of the gate electrode opposite to a first side of the gate electrode formed adjacent to the photoelectric conversion region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
